

Macdonald, J. A.

April 1911

President's Office.

Private.

April 9th, 1914

Dr. J. A. Macdonald,  
Editor "The Globe",  
Toronto.

Dear Dr. Macdonald:

I am sending you herewith a map of Ontario with the counties marked and on which are written figures indicating the attendance from each county at the University of Toronto.

You will observe that from the City of Toronto we have <sup>approximately</sup> one third of the students who are drawn from the Province of Ontario. This seems to me to be not an undue proportion from Toronto considering the size of the city. Many people also come to the city and live here for a while simply to get education for their children.

The students are distributed pretty generally over the Province. I should be very glad if you can find it possible to use this information in any way you deem fit for setting the claims of the University before the Province. I do not wish this to be printed from me personally as a communication.

Yours sincerely,

President.
